83     <p>Espresso is a concentrated form of coffee served in small, strong shots and is
the base for many coffee drinks. It's made from the same beans as coffee but is
stronger, thicker, and higher in caffeine. However, because espresso is typically
served in smaller servings than coffee, it has less caffeine per serving.</p>

87     <h1>لاتيه</h1>
88     <p>A latte or caffè latte is a milk coffee that boasts a silky layer of foam as a
real highlight to the drink. A true latte will be made up of one or two shots of
espresso, steamed milk and a final, thin layer of frothed milk on top. These elements
combined result in a balanced milky coffee that possesses an aesthetically pleasing
look and a smooth texture.</p>

several different ways.</p>

96 <div id="Cappucino" class="tabcontent">
97     <h1>كابتشينو</h1>
98     <p>A cappuccino is the perfect balance of espresso, steamed milk and foam. This
coffee is all about the structure and the even splitting of all elements into equal
thirds. An expertly made cappuccino should be rich, but not acidic and have a mildly
sweet flavouring from the milk. And, because the milk is not actually mixed in it
gives the espresso a stronger flavour.</p>
